Re:

Notification & Certification of Self Implementing Cleanup and Disposal of PCB

Remediation Waste at the Former GST Steel Facility, Tract F-7, 8116 Wilson Road,

Kansas City, MO

EPA ID No. MOD 007 118 029

Dear Mr. Morrison:

Earlier this year we submitted to you, the final Notification and & Certification of Self Implementing Cleanup and Disposal of PCB Remediation Waste at the former GST Steel Facility, Tract F-7 (GST), 8116 Wilson Road, Kansas City, Missouri. At that time we were scheduled to implement the remedy in April 2012. Due to other commitments, we had to defer the start of this project.

We are planning to implement the clean-up of the site Monday, September 10th, 2012. Given the limited amount of PCB waste at the site, we have scheduled to be at the site for five days. This schedule includes; mobilization, excavation, transportation and disposal, verification sampling, backfilling, and demobilization from the site. If there is any change to this schedule, we will notify you. I have attached an updated project schedule for your files.

Mr. Morrison, on behalf of Compass Big Blue, LLC, I would like to thank you for your help on this project. Should you have any questions regarding our revised report, please feel free to contact me at (312) 733-9370.

Sincerely,

Compass Big Blue, LLC.

John M. Kupar, PG
